METEOTIME FIESTA

35.1130.01 METEOTIME FIESTA
Wetter-Information-Centre

What will the weather be like? Looking at the METEOTIME FIESTA Weather-Information-Centre you are **always up to date and informed**.

Weather forecast via Meteotime signal

The METEOTIME FIESTA Weather-Information-Centre provides a **professional weather forecast** for **470 European cities** (60 regions with 4 day forecast, 30 regions with 2 day forecast). The forecasts are prepared and regularly updated by professional meteorologists and transmitted direct to your console via the European time signal DCF77 based in Germany. The radio time signal can be received all over mainland UK and almost all of Europe. Just select your nearest city, plus up to four other favorite cities you may wish to have weather information provided. No subscription is required for the weather forecast transmissions, this service is provided without charge.

Detailed weather information

The „Fiesta“ will additionally inform you of the likelihood of rain, wind speed, wind direction and **forewarns of approaching severe weather** conditions such as strong winds, ice, snow and fog.

- **Weather forecast for 470 European cities separated into day and night with anticipated maximum and minimum temperatures**
- **Warning signal for severe weather conditions**
- **Alarm clock with two time alarm settings and an earlier wake-up time if outdoor temperature will below 0°C**

Meteotime | Weather | Design Patent | TFA Anniversary
